Summary

Computer Engineering student with a strong foundation in Java and object-oriented programming. Passionate about solving real-world problems through practical implementation and teamwork. Actively involved in technical and placement activities, developing leadership, coordination, and communication skills. Eager to contribute and grow as an Application Developer specializing in Android and backend systems.

Education

Bachelor of Engineering (B.E.) – Computer Engineering Dr. D. Y. Patil Technical Campus, Pune	2024 – 2027 CGPA-6.50
Diploma in Computer Engineering DYPEA's Dr. D. Y. Patil Polytechnic, Pune	2021 – 2024 Percentage: 75.00%

Experience

Full Stack Web Development Intern GTL Infotech Pvt. Ltd., Pune	June 2023 - July 2023
- Developed full-stack web applications using HTML, CSS, JavaScript, and SQL - Implemented both frontend interfaces and backend functionalities - Worked in a collaborative team environment to deliver projects on time	

Projects

Music Player Application (Android) | Java, XML, SQLite, Android SDK

- Developed a **feature-rich Android music player** with playback controls including play, pause, next, previous, shuffle, and repeat
- Implemented **background audio playback using Foreground Service**, ensuring uninterrupted music experience
- Designed **interactive UI with SeekBar synchronization and real-time updates**
- Enabled **notification controls and lock-screen media actions** using MediaSession APIs
- Applied strong understanding of Android components, lifecycle, media handling, and **Service & BroadcastReceiver architecture**

Personal Portfolio Website | HTML, CSS, JavaScript | 

- Designed and developed a **responsive personal portfolio website** showcasing projects and technical skills
- Implemented modern UI/UX design principles with smooth navigation and interactive elements
- Built fully responsive layouts using CSS Flexbox and media queries for cross-device compatibility
- Enhanced user experience with **dynamic content rendering and JavaScript-based interactions**
- Structured content into **modular sections (About, Skills, Projects, Contact)** for better readability

Technical Skills

Programming Languages: Java, SQL, JavaScript, C++, C.
Frontend: HTML, CSS, React.js.
Backend: Spring Boot, Spring MVC, Spring Security, JDBC, RESTful APIs.
Mobile Development: Android (Java), Flutter (Cross-platform: Android & iOS)
Database: MySQL, MongoDB.
Tools & Technologies: Git, GitHub, IntelliJ IDEA, Android Studio, Visual Studio Code.
Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), REST API Design
